ABSTRACT

Designed to assist teachers in small schools with the improvement of curriculum and instruction and to help smaller districts which do not have curriculum personnel to comply with Washington's Student Learning Objectives (SLO) Law, this guide contains reading curriculum materials for grades 7 and 8. The objectives listed are correlated to the Goals for Washington Common Schools and to broad K-12 reading program goals. The arrangement of information is designed to allow districts to personalize the curriculum materials to meet their own educational programs. The format consists of a sequential list of student learning objectives related to a specific area of the reading curriculum, followed by pages which feature one or more objectives and include activities, monitoring procedures, and possible resources used in teaching the objectives. Suggested grade placement of objectives and activities is indicated, and, where applicable, the relatedness of an objective to other curriculum areas is shown. Reading scope areas for grades 7-8 include word recognition skills (phonetic and structural analysis), vocabulary (root words, prefixes, suffixes), comprehension (punctuation, literal, interpretive, evaluation, appreciative), oral and silent reading, study skills (following directions, alphabetizing, dictionary skills, parts of books, reference locating, organizing, outlining, note taking, report writing, retention), and reading in content areas. ACKNOWLEDGMENTS

The Small Schools Student Curriculum Materials were written by a consortium of teachers and administrators from local districts, Educational Service District 189 and the office of Superintendent of Public Instruction.

Small Schools Planning Committee:

JoAnne Nelson, Coordinator, Small Schools Project ESD 189
Dr. David Hartl, Assistant Superintendent, C & I, ESD 189
Robert Gilden, Administrative Assistant, Lake Stevens School District
Eugene Elledge, Assistant Superintendent, Monroe School District
Don Van Liew, Elementary Principal, Granite Falls School District
Robert Estes, Director of Curriculum, Lake Stevens School District
Ronald Crawford, Assistant Superintendent, Snohomish School District
Richard Rejm, Elementary Principal, Stanwood School District
Tom Sofie, Elementary Principal, Sultan School District
Dr. Donald Hair, Assistant Superintendent, SPI
Therese Destito, Supervisor, Small Schools Project, SPI

Reading Committee 4-8:

Lana Andrews, Teacher, Monroe School District
Gordon Birklid, Elementary Principal, Lake Stevens School District
Dorothy A. Bolton, Teacher, Lakewood School District
Rebecca Bouchard, Teacher, Stanwood School District
Carroll Brown, Elementary Principal, Snohomish School District
Dana M. Brown, Teacher, South Whidbey School District
JoAnn Douglas, Teacher, Sultan School District
Jon Floyd, Teacher, Monroe School District
John Hager, Elementary Vice-Principal, Sultan School District
Marvin Hendrickson, Elementary Principal, Arlington School District
Linda Kavaney, Teacher, Arlington School District
Don Keith, Teacher, Lake Stevens School District
Gaylord Luginsland, Elementary Principal, South Whidbey School District
Lynette Lundberg, Teacher, Sultan School District
Nellie B. Motes, Teacher, Darrington School District
John Pershall, Teacher, Darrington School District

Therese Destito, SPI, Editor

APPRECIATION

Many educators have been involved in the development of the Small Schools curriculum materials. Of these, Robert Groeschell, now retired from the office of the State Superintendent of Public Instruction, deserves special recognition of his insight, leadership and support in initiating the Small Schools Curriculum Project.

In order to provide assistance to small school districts, a curriculum assessment was conducted by Mr. Groeschell in the spring of 1975. The findings of this assessment pointed out the need for the development of curriculum guidelines to assist small districts in identifying learning objectives and in planning for program implementation. These findings were used to provide the basis for originally funding the Small Schools Curriculum Project.

INTRODUCTION

The Small Schools materials were developed through the cooperative efforts of three levels of educational organizations: local, regional and state. Forty primary teachers and ten elementary principals from small districts in Snohomish and Island Counties (Arlington, Darrington, Granite Falls, Lake Stevens, Lakewood, Monroe, Snohomish, Stanwood, Sultan, South Whidbey and Monroe Christian School), developed and sequenced student learning objectives for grades kindergarten through third in five curriculum areas: reading, language arts, mathematics, science and social studies and for grades four through six in three curriculum areas: reading mathematics and language arts. Suggested activities, monitoring procedures and resources used in teaching the objectives were identified and each student learning objective was correlated to the State Goals for Washington Common Schools and to broad program goals. Educational Service District 109 and the office of the Superintendent of Public Instruction provided technical assistance, organizational leadership and editorial and publication services to the districts. Curriculum specialists from Washington colleges, universities and local school districts also assisted with the development of materials.

On the following pages you will find a portion of the Small Schools Curriculum. Included are student learning objectives, suggested activities, monitoring procedures and resources for Reading. These materials were developed during the 1976-77 school year.

ORGANIZATION OF THE SMALL SCHOOLS MATERIALS

Book covers and objective pages for all Small Schools materials have been color-coded for each subject: Reading--green, Language Arts--yellow, Mathematics--blue, Social Studies--buff and Science--pink. Following each colored objective page there are several pages which identify activities, resources and monitoring procedures which may be used when teaching to the objectives. See pages viii and ix of this book for more detailed explanation of the format. On those objective pages all objectives for an area of the scope are identified. Within each curriculum book the objectives have been correlated to the Goals for the Washington Common Schools and to the Small Schools Program Goals for that subject area.

RELATIONSHIP TO THE SLO LAW

The purpose of this book and all other Small Schools materials is to assist teachers with the improvement of curriculum and instruction. In addition, it is expected that many smaller districts lacking curriculum personnel will find this book helpful in complying with the SLO Law. (This Law requires districts to identify student learning objectives and to evaluate each student's performance

related to the attainment of the objectives.) Contained within this book are many more objectives than any district would choose to identify as their SLO objectives. In order to provide districts with assistance in identifying objectives which might compose their SLO list, selected objectives are marked with an asterisk (*). These objectives have been selected with the understanding that they serve only as a model when using the Small Schools materials in helping districts to meet the requirements of the SLO Law.

For more information concerning the SLO Law, see the Handbook for School District Implementation of the Student Learning Objectives Law available from the office of the State Superintendent of Public Instruction.

FORMAT

One unique feature of the Small Schools Curriculum is the format or arrangement of information on the page. The format was developed in order to facilitate the transportability of the product by allowing districts to personalize the curriculum materials to meet their own educational programs. The Small Schools Format provides a simple arrangement for listing objectives and identifying activities, monitoring procedures, and resources used in teaching.

Page One

The first format page lists the sequence of student learning objectives related to a specific area of the curriculum for either reading, language arts, mathematics, science or social studies. For each objective a grade placement has been recommended indicating where each objective should be taught and mastered. The grade recommendation is made with the understanding that it applies to most students and that there will always be some students who require either a longer or shorter time than recommended to master the knowledge, skills and values indicated by the objectives.

Columns at the right of the page have been provided so district personnel can indicate the grade placement of objectives to coincide with the curriculum materials available in their schools. District personnel may also choose to delete an objective by striking it from the list or add another objective by writing it directly on the sequenced objective page.

Objectives		
1. identify the author's purpose in writing.	11-12-8	
2. identify the author's point of view.	11-12-8	
3. identify the author's bias or prejudice.	11-12-8	
4. identify the author's attitude toward the subject.	11-12-8	
5. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
6. identify the author's purpose in writing.	11-12-8	
7. identify the author's point of view.	11-12-8	
8. identify the author's bias or prejudice.	11-12-8	
9. identify the author's attitude toward the subject.	11-12-8	
10. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
11. identify the author's purpose in writing.	11-12-8	
12. identify the author's point of view.	11-12-8	
13. identify the author's bias or prejudice.	11-12-8	
14. identify the author's attitude toward the subject.	11-12-8	
15. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
16. identify the author's purpose in writing.	11-12-8	
17. identify the author's point of view.	11-12-8	
18. identify the author's bias or prejudice.	11-12-8	
19. identify the author's attitude toward the subject.	11-12-8	
20. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
21. identify the author's purpose in writing.	11-12-8	
22. identify the author's point of view.	11-12-8	
23. identify the author's bias or prejudice.	11-12-8	
24. identify the author's attitude toward the subject.	11-12-8	
25. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
26. identify the author's purpose in writing.	11-12-8	
27. identify the author's point of view.	11-12-8	
28. identify the author's bias or prejudice.	11-12-8	
29. identify the author's attitude toward the subject.	11-12-8	
30. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
31. identify the author's purpose in writing.	11-12-8	
32. identify the author's point of view.	11-12-8	
33. identify the author's bias or prejudice.	11-12-8	
34. identify the author's attitude toward the subject.	11-12-8	
35. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
36. identify the author's purpose in writing.	11-12-8	
37. identify the author's point of view.	11-12-8	
38. identify the author's bias or prejudice.	11-12-8	
39. identify the author's attitude toward the subject.	11-12-8	
40. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
41. identify the author's purpose in writing.	11-12-8	
42. identify the author's point of view.	11-12-8	
43. identify the author's bias or prejudice.	11-12-8	
44. identify the author's attitude toward the subject.	11-12-8	
45. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
46. identify the author's purpose in writing.	11-12-8	
47. identify the author's point of view.	11-12-8	
48. identify the author's bias or prejudice.	11-12-8	
49. identify the author's attitude toward the subject.	11-12-8	
50. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
51. identify the author's purpose in writing.	11-12-8	
52. identify the author's point of view.	11-12-8	
53. identify the author's bias or prejudice.	11-12-8	
54. identify the author's attitude toward the subject.	11-12-8	
55. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8	
56. identify the author's purpose in writing.	11-12-8	
57. identify the author's point of view.	11-12-8	
58. identify the author's bias or prejudice.	11-12-8	
59. identify the author's attitude toward the subject.	11-12-8	
60. determine whether a selection is an advertisement or a selection representing a point of view.	11-12-8

Page Two

On the second format page, one or more objectives from the first format page are rewritten and suggested activities, monitoring procedures and resources used in teaching to the objective(s) are identified. The objectives are correlated to the State Goals for Washington Common Schools and to broad K-12 program goals. The suggested grade placement of the objectives and the activities is indicated and, wherever applicable, the relatedness of an objective to other curriculum areas have been shown.

Below is an example of a completed second format page. Teachers and principals in local districts may personalize this page by listing their own resources and by correlating their district goals to the student learning objectives.

DEFINITION OF FORMAT TERMS
Small Schools Curriculum Project

Subject indicates a broad course of study. The subject classifies the learning into one of the general areas of the curriculum, i.e., reading, mathematics, social studies.

Specific Area indicates a particular learning category contained within the subject. Within the subject of reading there exist several specific areas, i.e., comprehension, study skills, word attack skills.

State Goal indicates a broad term policy statement relating to the education of all students within the State of Washington. In 1972, the State Board of Education adopted 10 State Goals for the Washington Common Schools.

District Goal generally reflects the expectations of the community regarding the kinds of learning that should result from school experience. These goals are employed mainly to inform the citizenry of the broad aims of the school. When district goals are correlated to student learning objectives, community members are able to see how their expectations for schools are translated daily into the teaching/learning process of the classroom.

Program Goals are K-12 goals which do not specify grade placement. These goals provide the basis for generating subgoals or objectives for courses or units of study within a subject area. Program goals are used as a basis for defining the outcomes of an entire area of instruction such as mathematics, language arts or social studies.

Student Learning Objective

Three major types of learning objectives which have been identified are knowledge, process and value objectives.

Knowledge Student Learning Objectives identify something that is to be known and begins with the words, "The student knows...". Knowledge objectives specify the knowledge a student is expected to learn. These objectives include categories of learning such as specific facts, principles and laws, simple generalizations, similarities and differences, etc.

An example of a Knowledge Student Learning Objective is: "The student knows guide words in a dictionary indicate the first and last words on the page."

Process Student Learning Objectives identify something the student is able to do, and begins with the words, "The student is able to...". These objectives are associated with the rational thinking processes of communication, inquiry, problem solving, production, service and human relationships.

An example of a Process Student Learning Objective is: "The student is able to associate a consonant sound with the letter name."

Definition of Format Terms

Value Student Learning Objectives identify only the type of values which foster the context of the discipline. These objectives are thought to be most uniformly and consistently approved by society as supporting the major aims of the discipline.

An example of a Value Student Learning Objective is: "The student values reading as a worthwhile leisure time activity."

Suggested Learning Activities describe the behavior of both the teacher and students. The instructional strategies employed by the teacher, as well as the activities undertaken by the students, are included in this section. Each activity includes materials, group size and procedures.

Suggested Monitoring Procedures indicate informal methods for determining the progress a student is making toward the attainment of the objective. These methods include techniques such as teacher observation, student interest and attitude surveys and recording results of classroom instruction.

Possible Learning Resources indicate materials, teacher made or commercially produced, which are needed by both the teacher and students in order to accomplish the learning activities.

* * * * *

Appreciation is extended to Dr. Charles Murray, Superintendent, and the staff of ESD 189 for providing meeting space, equipment and resources which facilitated the development of the Small Schools Curriculum materials.

Additional appreciation is given to the pilot districts and ESDs 171 and 189 for their assistance in field testing and revising the Primary Small Schools Curriculum materials.

* * * * *

GOALS FOR THE WASHINGTON COMMON SCHOOLS

1. As a result of the process of education, all students should have the basic skills and knowledge necessary to seek information, to present ideas, to listen to and interact with others, and to use judgment and imagination in perceiving and resolving problems.
2. As a result of the process of education, all students should understand the elements of their physical and emotional well-being.
3. As a result of the process of education, all students should know the basic principles of the American democratic heritage.
4. As a result of the process of education, all students should appreciate the wonders of the natural world, human achievements and failures, dreams and capabilities.
5. As a result of the process of education, all students should clarify their basic values and develop a commitment to act upon these values within the framework of their rights and responsibilities as participants in the democratic process.
6. As a result of the process of education, all students should interact with people of different cultures, races, generations, and life styles with significant rapport.
7. As a result of the process of education, all students should participate in social, political, economic, and family activities with the confidence that their actions make a difference.
8. As a result of the process of education, all students should be prepared for their next career steps.
9. As a result of the process of education, all students should use leisure time in positive and satisfying ways.
10. As a result of the process of education, all students should be committed to life-long learning and personal growth.

READING PROGRAM GOALS
(K-12)

1. The student desires to read and through self-initiative, seeks out reading for pleasure and knowledge.
2. The student develops a functional reading level to satisfy personal, social, educational, environmental and vocational needs and interests.
3. The student possesses word recognition skills (visual discrimination, auditory discrimination, phonetic analysis and structural analysis) necessary to read.
4. A. The student's vocabulary is expanded through involvement in reading.
B. The student possesses an appreciation for the power of words and proficiency in the use of words.
5. The student possesses listening skills necessary for development in reading.
6. The student possesses comprehension skills necessary to understand, interpret, evaluate and respond to printed materials when reading both orally and silently.
7. The student possesses study skills necessary to satisfy personal, social, educational, environmental and vocational needs and interests.

the original document was blank

SUBJECT: ReadingSPECIFIC AREA: Vocabulary: General

The student knows:

- . context is an aid to getting the meaning of the word.
- . antonyms are words that have opposite meanings, i.e., alert - drowsy; bleak - cheerful.
- * . most words have multiple meanings.
- * . synonyms are words that have similar meanings, i.e., over - above; accurate - careful; acquit - pardon.
- . homonyms are words that sound the same but have different spelling and meanings, i.e., pear - pair; eight - ate; weight - wait.
- . homographs are words that are spelled the same but have different derivations and meanings, and may differ in pronunciation, i.e., fair (market) - fair (just); object (noun) - object (verb).
- . the thesaurus is a resource for building vocabulary by identifying synonyms, antonyms and word usage.
- . an acronym is a word formed by the initial letters of words in a set phrase.
- . each subject area has vocabulary unique to the discipline.

The student is able to:

- . use the context of a selection to aid in pronouncing an unfamiliar word.
- * . use context for the purpose of getting the meaning of an unknown word.
- * . determine pronunciation and meaning of homographs.
- . recognize and translate signs/symbols which are critical for international survival.
- . recognize and interpret abbreviations.
- * . expand general vocabulary through involvement in reading.
- . use the thesaurus to locate synonyms, antonyms and specialized vocabulary.
- . use the specialized vocabulary to increase comprehension in the subject area.

The student values:

- . and appreciates the power of words.
- . an expanding meaning vocabulary as an aid to understanding and communication.

Title: Context Questions
 Group Size: small group, entire class
 Materials: sample questions for context

Give the students a worksheet
 with questions similar to the
 context questions in the activity.

How To Teach Reading, Revised
 Edition, Morton Botel, Follett
 Publishing Co.

Procedure(s):

- Discuss different kinds of context questions with the students. (See examples below.) Start with the definition question.
- Put the following definition question on the chalkboard:
 "As he glided through the water, he met a school of small, flat fish."
- Ask the students to define the meaning of the word school in the above sentence.
- Give a sentence example where school is used in a different way.
- Continue with other types of context questions.

Examples:

- The Definition Question: What does school mean in this sentence? "As he glided through the water, he met a school of small, flat fish."
- The Semantic Question: "What other meanings do you know for the word school?"
- The Synonym Question: What other word(s) could be substituted for strict in the following sentence without changing the meaning of the sentence?
 "Jefferson began a policy of strict economy."
- The Antonym Question: "What word(s) could we substitute for strict in the above sentence to make the sentence mean the opposite of what it does now?"

4. Ceres	d. lace-like																			
5. matriculate	e. work in gold and silver																			
6. ramjet	f. an imaginary animal with one horn																			
7. filigree	g. a mythological monster with the head of an eagle and the body of a lion																			
8. griffin	h. not moving																			
	i. a painting on fresh plaster																			

RECOGNIZING DIFFERENT KINDS OF CONTEXT CLUES

Formal Definition:

A hammer is a tool with a metal head and a handle, used for driving nails.

Description:

A butterfly, which is often brightly colored, is a flying insect with four wings, two long feelers, and a sucking beak.

Example:

Violins, banjos, cellos, harps, lutes and zithers are stringed instruments.

Synonyms:

Peanuts are also known as groundnuts, groundpeas and goobers.

Comparison:

The map of Italy is shaped like a boot.

Contrast:

A person who calls other people names is not kind.

Origin:

Sports probably began as training for battle.

Apposition:

"Wild Bill" Hickock, an American frontier scout, was a great marksman.

Treasure Hunt--Using any books in the room, find one example of each of the above context clues.

IDENTIFYING CONTEXT CLUES

On the line before each sentence, write the kind of context clue that is used to assist the reader.

1. _____ The word cereal is from Ceres, the Roman goddess of grain.
2. _____ A unicorn is not a real animal.
3. _____ Modern airplanes are powered by various kinds of engines: piston, fan jet, turbojet, turboprop and ramjet.
4. _____ The Italian word for "fresh" is fresco, which gives us the name of a painting done on fresh plaster.
5. _____ Filigree is delicate, pretty, lacelike work in gold and silver wire.
6. _____ "Day after day, day after day,
We stuck; not breath nor motion;
As idle as a painted ship
Upon a painted ocean."
--S. Coolidge
7. _____ The griffin was a mythological monster with an eagle's wings, head, beak, and a lion's body, legs and tail.
8. _____ To matriculate is to enroll or register, particularly in a college or university.

Title: The Synonym Rummy Game
Group Size: pairs
Materials: blank cards (playing-card size),
a thesaurus

Have student pair keep a record of score throughout the game.

Books:

Games To Improve Your Child's English, Hurwitz and Goddard, Simon and Schuster, pages 144-145.

Procedure(s):

- With the aid of a thesaurus, students select and list words that form sets of synonyms, three to five words per set.
- Words will exemplify the major parts of speech: nouns, verbs, adjectives, and adverbs.
- The size of the deck will depend on the number of players who will be using the deck when completed.
- About sixty cards should be prepared for two, three or four players.
- Write one word from list on each card.
- Rummy Rules: Shuffle, cut and deal: 10 cards to each player in a two-handed game, 7 cards in a three-handed game, 6 cards with four or more players.
- Next card is placed face up beside the deck (face down).
- Player can draw from deck or discard pile to make a synonym set. Pairs are laid out and can be added to later in the game.
- First player to get rid of all the cards in his/her hand is the winner.

Variations:

- Students can devise point system for each set of synonyms compiled during game.
- Can be played with antonyms, homonyms.

District Resources

Student Learning Objective(s) The student knows that homonyms are words that sound the same but
have different spellings and meanings: pear - pair, eight - ate, weight - wait.

Title: Build A Word
Group Size: small groups
Materials: cards (playing size),
dictionary

Books:

Games To Improve Your Child's English, Huruwitz, Goddard
Simon and Schuster, pg., 105

Procedure(s):

- . The playing deck should have 68 cards in all with 16 prefixes, 42 roots and 10 suffixes.
- . There may be several words with the same common prefix (such as re, pre), some familiar words as roots (form, view, heat, understand), and a few easy suffixes (ed and ing).
- . Seven cards are dealt to each player, and the rest of the pack is laid face down on the table. The object of the game is to build as many words as possible by laying down prefixes, roots and suffixes.
- . Each player draws a card from the pack and discards one. When a player feels he/she can form several words, she/he calls, "Stop!"
- . All players lay their cards on the table and tabulate points.
- . Scoring: 6 points for any good combination of a prefix and a root, 8 points for any combination of root and suffix, 20 points for any combination of prefix, root and suffix, 10 points for changing the part of speech of a word by using prefixes and suffixes on words:
- . The dictionary is used to settle disputes.
- . 250 points wins the game.

Title: Where Did Words Come From

Group Size: entire class

Materials: dictionary, worksheet

Teacher checks worksheets.

Books:

Wordcraft, Rittenhouse, Metcalf,
Dowling, J. M. Dents and Sons,
1969.

Procedure(s):

- Have students write the words that come from the names of people and explain their meanings.

- Have students use dictionary if necessary.

Example:

Dr. J. P. Guillotine - a machine for beheading,
Charles Mackintosh - lightweight waterproof fabric,
Louis Pasteur - pasteurization, partial sterilization of a substance.

- Have students look up words to find which country they were borrowed from.

Example: caravan (Persia)

beret (France)

Reading

SP-11-11-11: Comprehension: Punctuation

The student is able to:

- the comma signals a pause or series of items. 41-4-5
- the dash signals a longer pause than that signaled by the comma. 41-3-8
- the ellipsis (...) signals an interruption in thought or conversation. 45-7-8
- the parenthesis signals an explanation of the preceding word or adds information. 47-6-8
- the colon signals an explanation or list will follow. 47-4-8
- the semicolon can be used in place of a connecting word such as "and" or "but". 49-6-8
- the words between double quotation marks are usually the exact words someone said or the title of a story, article, poem or song. 51-4-8
- single quotation marks are used around the exact words someone has said, or the title of a story, article, poem or song when these are mentioned within the speech of another story character. 53-7-8
- there are methods of distinguishing thoughts from verbal expressions in cartoons. 4-6

The student is able to:

- use punctuation marks as an aid to getting meaning in silent and oral reading. 41-4-8

Title: A Series
Group Size: entire class or small group
Materials: worksheet, reading materials.

Teacher observation when
students read selections.

Procedure(s):

- . Have students read paragraphs with a series of items separated by commas.
- . Stress the need to pause as signaled by the comma.
- . Give the students additional sentences with dashes instead of commas. Have them contrast the difference when reading sentences that contain commas as opposed to sentences with a dash between words.

Example: Tom ate three hotdogs, two hamburgers, a milk shake, a candy bar and a bottle of pop.

Chickens, cows, horses, pigs and turkeys were all frightened and made noises when the plane flew low.

The present was big --too big to fit into the box.

"Sit up straight --or get a hack on the hand," he was told.

The person who can't - or won't - write a letter is cheating himself.

Possible Resources

Title: More Information Needed
 Group Size: small group, entire class
 Materials: chalkboard or worksheet

Remind students that the parenthesis is used
 to signal an explanation of the preceding
 word or adds information.

Examples:
 Write several sentences showing examples of the
 use of parenthesis.
 Examples:

The task can be assigned to three students
 (or you can get volunteers).
 Under the influence of French, Irish, German
 immigrants (among others) a great many new
 words are added to our American language.
 Hapenny (or half penny) is an English word for
 an amount of money.
 Acronyms are letter combinations that are
 read as words (for example NATO, CARE, AID,
 CORE).
 We have borrowed many words from foreign
 countries such as coleslaw, waffle, scow,
 boss (Dutch); bouquet, garage, beige, banquet
 (French).

Title: Colons

Group Size: small group

Materials: textbooks with selected passages
or worksheet with selected
passages

Observation by the teacher
noting students who have
difficulty with the concepts.

Procedure(s):

- Have students read the selected passages pointing out the similarity between a parenthesis and a colon, i.e., they both can signal an explanation.
- Also point out that a colon can signal a list of items.
- Have the students read the passages noting the differences.
- Ask the students why it is important to know information about colons and parenthesis.
(It assists in getting meaning).

SUBJECT: ReadingSPECIFIC AREA: Comprehension: Literal

The student knows:

- ~~a pronoun referent identifies a person, place or thing previously named or implied.~~
- adverbs answer how, when, where, how often.
- clue words, i.e., first, then, while, before, after, are an aid in noting sequence.
- special type (italics, boldface) is a tool used by authors to aid the reader to perceive intended meaning.
- literal details are stated facts such as names of characters, setting, incidents and time a story took place.
- sequence is the order of incidents or actions in a selection.
- the main idea of a selection is an explicit statement which conveys the theme or focus of the selection.

The student is able to:

- * use pronoun referents as an aid in determining meaning.
- * use adverbs to determine how, when, where and how often.
- * use clue words as an aid in determining sequence when reading.
- * use special type (italic, boldface, capitals) as an aid to getting the meaning of a written selection.
- * recognize, recall and/or locate details (when explicitly stated) from a selection read.
- * recognize, recall and identify main ideas (when explicitly stated) from a selection read.
- * recognize, recall and locate sequence (when explicitly stated) from a selection read.
- * recognize, recall and locate character traits (when explicitly stated) from a selection read.
- * recognize, recall and locate cause and effect (when explicitly stated) from a selection read.
- * recognize, recall and locate comparisons (when explicitly stated) from a selection read.

The student values:

Title: The How, When, Where, How Often
Group Size: small groups, entire class
Materials: several pages of single paragraphs as well as several short stories, work sheets

Procedure(s):

- . Have students read a paragraph and underline the "how" words and so on for each (when, where and how often).
- . After students finish reading a paragraph, ask specific "How, etc." questions to be answered from their reading.
- . Write a paragraph leaving out the adverbs and have students fill in as they read.

Title: Adverbs: Adverbs
Group Size: small group, entire class
Materials: worksheet or chalkboard

District Resources

Procedure(s):

- . Ask the questions--how, when, where, how often.
- . When the student responds, ask him/her how he/she knows.
- . Then go into the fact that these words are adverbs.

Example(s):

1. How or in what manner did Si go to the mountain?
Answer: Quickly--using long strides.
2. When did the gods get angry with him?
Answer: Immediately upon his arrival.
3. Where does it say the scrolls were placed?
Answer: Over there.
4. How many times must Si return?
Answer: Just states "often".

Suggested Activities: Grade(s) A 7-8

Suggested Monitoring Procedures

Possible Resources

Title: Determining Sequence
Group Size: individual, entire class
Materials: worksheet

Procedure(s):

- . Have students read directions on how to make something. Tell students to notice the order in which the different steps should be done.
- . Below these directions, arrange the steps in the wrong order. Cover the original set of directions and have students put the correct number by each step according to its proper place in the sequence.
- . Check sequence by uncovering original set.

Title: Build A Sequence Story
Group Size: individual, entire class
Materials: chalk and chalkboard

Procedure(s):

- . Explain the importance of clue words in following a sequence of events.
 - . List the clue words on the board.
 - . Give a lead-in sentence. Ask the students to add sentences in order to make a story. Be certain to use the sequence clue words.
- Example: When John ran down the street, he hid from his pursuers--add on from there using clue words such as--first, next and later.

Check student's progress and competence on worksheet.

Books:

Reading For Different Purposes
 Houghton Mifflin Co.
 pages 18-34 (used in 7th and 8th but is 4th level)

Suggested Activities: Grade(s) 7-8

Suggested Monitoring
Procedures

Possible Resources

Title: Pyramids

Group Size: small groups, entire class

Materials: paper, pencils, paragraph

Procedure(s):

- . Have students read a paragraph and decide on the main idea.
- . Have student draw boxes as illustrated, showing the main idea and major details of the paragraph.

Example(s):

Variation:

District Resources

139

Title: Bumper Stickers
Group Size: small groups
Materials: objective newspaper articles

Directions:
Divide the class into small groups and give each group newspaper articles to read.
Have students read paragraphs and determine main ideas.

Each group paraphrases the main idea and writes it on a bumper sticker.

As desired, have students write paragraph titles expressing main idea of each paragraph.

Title: Locating Main Idea
Group Size: entire class
Materials: worksheet with samples of paragraphs

Directions:
Main idea is sometimes contained in the first or last sentence. However, it is best to teach students that the main idea is not always stated in a particular sentence.

Try to get student to extract the main idea from the paragraph as a whole.

Example: Pioneer children had many toys. They used sticks, twigs, rocks and shells. They used anything they found around them. They had just as much as children today have with toys that come from stores. But, best of all, the pioneers' toys were free!

Which sentence states the main idea?

Rewrite the main idea in your own words.

Title: Posters
Group Size: small group, individual or entire class
Materials: construction paper or tagboard, paints, crayons or felt pens

Directions:
Have students make a poster to advertise their

Check bumper stickers against the main idea of the articles.

Students give written or oral responses to questions.

Materials: worksheet

Books:

Reading and Thinking Skills 4
Continental Press, page 20.

"Go", Scholastic Magazine Publications, 1974, Master 27
TV 2:88/6.

Detecting the Sequence, Richard A. Boring, D. E. Barnell Loft, Ltd., Baldwin, N.Y. 1973.

District Resources

Procedure(s):

- Select or write two short paragraphs that introduce an incident or story.
- Below the paragraphs list several sentences that may or may not have happened as a result of the story.
- The students then select which sentences could have happened in the story.
- Students then write the sentences on their worksheet in proper sequential order.

Example: Only five seconds remained on the clock.

How could Slick Watts shoot a basket? He dribbled low with his left hand and drove for the basket. Suddenly a huge hand loomed over the ball. A groan was heard in the stands for the game was over. Home fans consoled Slick and let him know they appreciated his effort. All he wanted to do was get to the showers.

Seattle won the game.

Seattle lost the game.

Slick made the basket.

Slick did not make the basket.

Seattle was ahead in the game.

Seattle was behind when five seconds remained on the clock.

Title: Main Ideas in Single Sentences

Group Size: individual, small group,
entire class

Materials: worksheet

Procedure(s):

- . Explain that the following exercise was written to find the inferred main idea of a single sentence.
- . Have the students read the sentences carefully and by answering the questions, try to understand what the total sentence means. Is there an unstated main idea?
 1. Kuru, or laughing sickness, afflicts only the Fore tribe of eastern New Guinea and is 100% fatal.
 - a. What does fatal mean?
 - b. How many ideas are in the sentence?
 - c. What are the ideas?
 - d. What does afflict mean?
 - e. What is the main idea of the sentence?
 2. Medical records show a case of someone with thirteen fingers on each hand and twelve toes on each foot.
 - a. How many ideas are in this sentence?
 - b. What are the ideas?
 - c. What is the main idea?
 3. The most common disease is the common cold.
 - a. What does common mean?
 - b. What is the main idea?
 - c. Are there any other ideas?
 4. The most massive living thing on earth is a California Sequoia tree named General Sherman, standing 272 feet 4 inches tall.

Title: True In All CasesGroup Size: individual, entire classMaterials: short stories, paragraphs, etc.Procedure(s):

- Define and explain generalizations. Generalizations are broad statements that assign certain characteristics to a group of people, things, or situations.
- To decide whether or not a statement is a generalization, ask yourself these questions:
 - Does the statement try to make you think that if it is true in one case, it is true in all cases?
 - Does the statement refer to a group of people, things or situations?

All men are very poor writers. This is a generalization because a characteristic is assigned to a group of people.

This man is a very poor writer. This is not a generalization because it is about a characteristic of one particular individual!

- From the student or teacher prepared materials (paragraphs, short stories, etc.), each student will write generalizations. He/she should be prepared to tell why it is a generalization.

Variation: Type all of the students' generalizations on a worksheet. Have the students write if it is or is not a generalization and why.

- Have the students draw pictures on a transparency, (cartoons), accompanied by the generalization.

Then each student can show his/her picture to the class on the overhead projector.

to Summarizing.Group Size: small groups, entire classMaterials:Procedure(s):

- Ask each student to think about a television show they watched in the past week; or assign class to watch a particular show (limit to half or one hour show) or assign different shows to different groups.
- Students will write a summary of television shows; or if whole class, this could be as a group project on board or overhead, or if group assignment, each group could work together.
- Read summaries aloud and discuss main ideas.
- Other students who saw same show may have ideas to add.

Check student product.

Kid's Stuff, Reading and Language Experiences, Intermediate-Junior High, Incentive Publications page 166.

Title: Telegram ItGroup Size: entire classMaterials: old telegramProcedure(s):

- Show students a copy of a telegram.
- Write some telegrams with the class to give practice in compacting sentences and ideas.
- Then ask each student to write a summary of a story read or library book limiting themselves to space provided by a telegram.

Example:

Title: Seems like---
Group Size: small group, entire class
Materials: poems, short stories, pictures, crayons, paper, etc.

Teacher checking - student critique.

Datalog, The Economy Company, pages 11, 215 Personifications pages 20, 69, 133, 149, 156, 222 Also use Skill Bank in Datalog.

Procedure(s):

- Personification:
- Use pictures and write dialogue.
 - Then read to class.
 - Match pictures to poems or short stories for personification.
 - Do your own illustrations for poems or short stories.
 - Have inanimate objects talking or humans having conversation with inanimate --ball, dish, tree, etc--objects.
 - Take a poem or short story and turn into use of personification.
- Similes:
- Read short stories and locate similes.
- Metaphors:
- Same as above.

District Resources

Title: Sensory Images
Group Size: small groups, entire class
Materials: cards, felt pen

Procedure(s):

- From a story you have just read, select words stimulating strong sensory images and write them on the board or cards.
- Examples: steaming, uncoiled, stealthily, shadowy or drowsy.
- Show a card and have students tell what images

the word calls to their minds.

- If this word does not elicit an immediate response, contribute some sensory impressions of your own.
- You might have students find and list in the text specific descriptive words involving vivid sensory images.

Title: Puzzle Pieces
Group Size: individual, pairs
Materials: cards 2" x 5"

Procedure(s):

- Write examples of similes, metaphors, etc., one on each card.
- Cut cards in such a fashion as to match up when giving correct answer.

Example:

Woven throughout the fabric of life
is man, the most powerful of the species.

; metaphor

Just as there are towns in the forest,
so there are cities in the sea and
villages on the prairie.

Title: Categorize the Figure of Speech

Group Size: individual, pairs

Materials: cardboard, one 12" x 7" piece, colored, one plain 20" x 7"

Procedure(s):

- . Cut colored cardboard into three 4" x 7" pieces.
- . On one card write:
PERSONIFICATION: A statement that treats a lifeless object or idea as if it were alive.
- . On another write:
METAPHOR: A figure of speech, based on some resemblance of a literal to an implied subject.
- . On the last card write:
SIMILE: A comparison, as a figure of speech.
- . Cut the white cardboard into 1½" x 7" strips.
- . Write on each strip an example of one category such as:
The ocean's fists beat against the shore.
- . On the back of that same strip write:
PERSONIFICATION.
- . The student then reads the sentence and places it under the proper category.
- . The student may turn the strip over to see if it was placed in the right category.

Title: The Good Guys and the Bad Guys
Group Size: small group, entire class
Materials: reading texts, library books,
 felt pens, tagboard strips

Teacher listens to discussions
 and checks information placed
 on bulletin board.

How The Grinch Stole Christmas,
 Dr. Seuss

A Christmas Carol, Charles
 Dickens

Wizard of Oz, Baum

District Resources

Procedure(s):

- After reading a collection of stories, either from the basal text or from a library book, have the students recall the stories and list the characters they thought were the "bad guys."
- During class discussion, have each student write a character's name on a tagboard strip.
- Student places this strip on the bulletin board under the appropriate title "Good Guys" and "Bad Guys."
- Students should be prepared to tell the characteristics of the "good" or "bad" guy and the reason he/she is considered "good" or "bad."

Variation:

- Have the students select a character from any story they have read. Change the character's traits so that he/she is the opposite from what he/she was originally. Write a short story using this "new" character.

Example:

- In the story Cinderella, change Cinderella from her sweet, good self to a horrible, hateful person.
- These characters can be acted out in skit form.

Title: Green Cheese
Group Size: small groups, entire class
Materials: books, articles, magazines

Teacher leads and monitors discussion.

Books:

Teacher monitors small group reports.

Encyclopedias
National Geographics
Almanacs
Record Books

Help students pick out details when comparing dated information

- Procedure(s):
- Identify copyright date. Is the validity of the information related to the copyright date?
 - Teacher read selections from old encyclopedias and reference books on such topics as the moon, science, medical science, sports records, invention.
 - In class discussion, compare information on same topics from current reference books.
 - Teacher assigns topics and facts for students in small groups to research in old and current reference materials.
 - Small groups report findings to entire class.

District Resources

Title: Date That Topic
Group Size: individuals, small groups
Materials: Reader's Guide, 3" x 5" cards

Teacher reads and discusses with students their findings.

Help students become aware of noting the accuracy of information in terms of copyright dates.

- Procedure(s):
- Give the students a recent topic to look up in the Reader's Guide in the library.
 - Have students list on a 3" x 5" card the magazine names, titles of the articles and dates of the issues that contain information about his/her topic.
 - Student chooses the most recent article to read and writes a short review.

213

212

Suggested Activities: Grade(s) _____	Suggested Monitoring Procedures	Possible Resources
--------------------------------------	---------------------------------	--------------------

Variation(s):

- Give students a list of outdated subjects and let them see if they can find anything on them in the Reader's Guide. Discuss findings with the students.
- Have students choose books with copyright dates from the 1930's, 40's, 50's, 60's and 70's. This would be a long-term assignment.
- Have them read the books and keep a record comparing information given about each time period.

Title: True or False

Group Size: individual, small group,
entire class

Materials: worksheets with generalizations

Procedure(s):

- Define and explain valid (true) and invalid (false) generalizations during class discussion.

- A generalization is valid if it is supported by facts. It may be limited by such words as some, most, many or usually.

"Some vehicles have wheels." This is a valid generalization because it is limited by some.

- A generalization is considered invalid if it cannot be proven or if it leaves no room for exceptions.

"All vehicles have wheels." This is an invalid generalization because all allows no room for exceptions.

- Have students label generalizations on worksheets as valid or invalid.

Variations:

- Have the students write their own generalizations for small group discussion and identification.
- Have them write generalizations and reasons for labeling them valid or invalid to hand in to teacher.

After having defined, explained and given guided practice in determining if a generalization is valid or invalid, move about the room to be sure that each student is having success.

Teacher checks worksheets and student written selections.

Books:

Datology, The Economy Co., page 102.

Program Goal

4E,6,7

Related Area(s)

Suggested Activities: Grade(s) 7-8

Suggested Monitoring Procedures

Possible Resources

Title: Is That So!
Group Size: entire class
Materials: newspapers, magazines

Teacher monitors discussions.

Procedure(s):

- . Discuss the fact that bias in writing is a result of the author's attempt to make readers feel strongly for or against something.
- . Discuss the fact that non-biased materials report only the facts, and biased materials allude to vague claims and promises.
- . Have students find as many articles as they can in magazines and newspapers that are biased in nature.
- . The next day, have them find articles that are not biased in nature.
- . Display the articles on the bulletin board under appropriate titles: Biased and Non-Biased.

Variation(s):

- . Teacher divides the class in half, having one group look up only biased articles and the other unbiased articles.
- . Have students read the articles (or parts of articles) to other class members. Discuss the author's use of words to either persuade or report.

District Resources

GRADE: Reading

SPECIFIC AREA: Oral Reading, Silent Reading

The student knows:

- the purpose of oral reading is to share a written selection with audience.
- silent reading precedes oral reading when possible.
- oral reading slows the rate of reading.
- the number of new ideas on the page determines rate (fewer ideas--faster rate).
- to reread silently clears up misunderstandings.

139 4-8
139 5-8
141 4-8
151 5-8
149 4-8

The student is able to:

Oral Reading

- read orally with fluency and expression to give meaning to a reading selection.
- read orally at his/her instructional level to prove a point, provide information and to show meaning.
- enunciate clearly and project his/her voice to be heard.

139 4-8
141 4-8
141 4-8

Silent Reading

- read silently at his/her independent level.
- read silently and respond to literal, interpretive and critical questions.
- determine the tone of the passage in reading silently.
- survey and adjust rate according to complexity of materials.
- increase rate of reading and input of information.

143 4-8
145 4-8
147 5-8
149 5-8
151 4-8

The student will:

- reading and will choose to read silently.
- reading and will choose to read orally for others.
- reading a wide variety of printed materials.
- sharing reading experiences with others.

143 4-8
137 4-8
147 4-8
147 4-8

Suggested Monitoring Procedures

Possible Resources

Title: Timed Reading (Beat the Clock)
Group Size: individuals, entire class
Materials: reading selection, stop watch

Procedure(s):

- Have students read a selection for a prior determined time period, such as one minute.
- Teacher times students indicating when to begin and when to stop.
- After reading have students count the number of words read, or number of lines read. Record on a graph the number of words read or lines read.
- Repeat timings several times throughout day.
- Always have students count number of words or lines read, and record the total on graph.
- Recording reading rate on a graph shows students visually the increased rate of their reading.
- Rate of reading will not increase each day, but will reach plateaus--especially as material increases in difficulty.

Variation:

- Make stop watch or timers available to students.
- Let students practice timing themselves throughout the day.
- Once each day, teacher directs timed reading experience. Reading rate of teacher directed timing is recorded. However, then timers are made available to students, they may have many opportunities to practice throughout the day.

Title: Fictionary
Group Size: small group, entire class
Materials: a set of dictionaries (one for each), paper and pencil

Collect and score papers and possibly use total points as a daily or quiz grade.

Procedure(s):

- . Each student selects five words from the dictionary of which he/she thinks no one will know the meaning.
- . Students copy down each word with the complete meaning and put their name on the paper.
- . Teacher requests each student to read his/her words one at a time. After a word is read, students who think they know the definition raise their hand.
- . When called on, the student attempts to give the correct meaning.
- . If the student is correct, he/she gets a bonus point.
- . The first word on the student's list that no one knows the definition of is circled and becomes his/her entry in the final word list.
- . The teacher collects the entry papers, selects an entry word, writes it on the board, labels it and pronounces it.
- . The students copy down the word on their score sheet (a regular piece of notebook paper).
- . Students write down a made-up definition in dictionary language.

Possible Resources

Title: Words in Context or What Do You Mean?

Group Size: small groups

Materials: worksheet of story and words to find

Students should be able to tell orally what each underlined word means by reading contextual clues. Checking in the dictionary will reinforce meanings.

Books:

Gulliver's Travels, Jonathan Swift

Procedure(s):

- Look at the passages from Gulliver's Travels.
- Read story with students and call attention to the words that are underlined.
- Ask students if they know the meaning of the words? (Even if the students don't know the exact meaning, he/she could understand what was happening.)
- Explain meaning in context.

Story Excerpts:

"I likewise found several slender ligatures across my body, from my armpits to my thighs.

I could only look upwards; the sun began to grow hot, and the light offended my eyes.

I heard a confused noise about me, but in the posture I lay, I could see nothing but the sky."

- Be certain to notice whether the word is used in its verb form, noun form, or as an adjective.

slender _____

ligatures _____

offended _____

- Have students look up the correct definition of the word in the dictionary based on how the word is used in context.

Possible Resources

Title: Changing Accents
Group Size: entire class
Materials: worksheet or sentences on the board to copy

Procedure(s):

- Explain that some words change their meaning by moving the accent.
- Example: A rebel is one who fights against authority.
- Explain to students that when they read that they pronounce rebel with the accent on the first syllable: reb'el. But when they speak of people who rebel, the pronunciation changes. The accent then is on the second syllable: re bel'

ACTIVITY:

- Fill in the blanks with the right word.
- Show which syllable is accented.
- Use the dictionary to find the part of speech of the word and check work.
- In parenthesis tell which part of speech each word is:

- One _____ detail was added each _____ of the discussion.
mi nute' min'ute
(v?) (a?) (n?)
- To _____ her, Sam purchased a new television _____.
con sole' con'sole

Note and record students who understand the use of accent marks and parts of speech and those who do not.

 rec'ord re cord'

Title: More Dictionary Accents
Group Size: small group, entire class
Materials: dictionary, paper, pencils

Procedure(s):

- . Have students find the following words in the dictionary.

object	record	present
subject	erect	insult
reject	transport	contract
present	transfer	proceed

- . As they do so, they are to:

1. Find and write down different pronunciations for each word, showing the stress or accent mark.
2. Write down the part of speech for each word.
3. Find and write the different meaning for each word.
4. Use each word correctly in a sentence.

District Resources

Student Learning Objective(s) A. The student knows meaning of the symbols used to indicate pronunciation. B. The student is able to use pronunciation key as an aid in reading words. C. The student is able to use the dictionary to locate the accented syllable in a word.

Title: Webster's Worry

Group Size: small group, entire class

Materials: pencils, paper

Procedure(s):

- Each student contributes one or more original nonsense words to a dictionary. Each entry includes:

- a. original spelling
- b. phonetic respelling of the word, including stresses and syllabication
- c. the form class
- d. spelling of word with endings
- e. definitions
- f. illustrations, if possible

Examples:

SKETTER (ske'tter) v. (skettering, skettered),

n. (sketters)

1. to disperse quickly, spill
2. queasy feeling in the stomach
3. small skateboard with wheels

FLIB-BLE (flib'l), v. (flibbling, flibbled).

1. to waddle.
2. to disagree in fun.

n. (fibbles, flibber),

3. one who disagrees.
4. one who waddles.
5. a short-billed bird with a tail that wobbles.

- A committee may alphabetize the entries and prepare the dictionary for "publication."

Carefully monitor the students, checking to see if they understand the procedures and the idea of phonetic spelling.

Title: Walking Through The Yellow Pages
Group Size: small group, entire class
Materials: old telephone directories

See that students don't copy each other.

Edmonds School District #15, Word Analysis Game, Intermediate and Junior High

Procedure(s):

- . Have the students bring to school some old telephone directories. This may provide a reading activity for those students who can't or won't read from other kinds of books. However, all levels could benefit from this because the yellow pages are confusing.
- . Provide a list of preliminary instructions and questions designed for "getting to know the telephone directory--especially the yellow pages".

Example:

1. Have them look up the names, addresses and telephone numbers of six of their friends. Arrange these names in alphabetical order. Which friends have the most common names?
2. Have them browse through the yellow pages. Have them note that the whole section is alphabetized by groups of business or professional people rather than by individuals.
3. Have them look up these large groups such as doctors, lawyers, plumbers, service stations, etc. Have them find individual people or business within the large groups.

SUBJECT: ReadingSPECIFIC AREA: Study Skills: Locating Reference/Library

The student knows:

- . books in the library are shelved in groups according to type, i.e., stories, biography, reference, factual information.
- . specific books and other materials or groups of books can be located through the card catalog and other visual guides, i.e., shelf labels, wall signs, diagrams.
- * . the card catalog is arranged in alphabetical order and references subjects, authors or titles.
- . nonfiction books are divided into ten subject groups (Dewey Decimal System).
- . that Readers' Guide and Subject Index to Children's Magazines index magazine articles alphabetically.
- . there are specialized references for locating information:
 - . encyclopedias list alphabetically information on a wide range of subjects.
 - . atlases are a bound collection of maps, tables, charts.
 - . almanacs are annual publications including calendars, tables and/or other useful information.
- . vertical files contain pamphlets, clippings, pictures and charts.

The student is able to:

- * . identify specific types of information found on catalog cards, i.e., author, title, call number, number of pages, annotation.
- . identify the three main kinds of cards, i.e., author, subject, title.
- * . use card catalog call numbers and visual guides to locate books/materials.
- * . locate basic information in magazine index entry, i.e., title of article, title of magazine, pages, date of publication.
- . use appropriate procedures to locate information in reference materials.
- . use the vertical file to locate needed information.
- . identify the ten main Dewey Decimal groups and their numbers, i.e., 100, 200, etc.

The student values:

Possible Resources

Title: Relay Race
Group Size: entire class or groups of 4-5
Materials: copy of Readers' Guide or
 Subject Index per group, one
 sheet of questions per group

Check answers of winning group.
 Winners should be by speed and
 accuracy of information.
 Observe troubled individuals
 for help later.

Procedure(s):

- . Seat each group at a separate table.
- . Give each group a set of questions, handled by the first person to use the Readers' Guide or Subject Index.
- . After first question on worksheet is answered, it is passed to the next student, etc.
- . Winners are the first to finish.

Title: That's My Name Too
Group Size: entire class
Materials: a copy of Readers' Guide per student.

District Resources

Procedure(s):

- . Each student looks to see if any authors with the same surname as his/hers are in the book.
- . Teacher may assign another name.

Suggested Activities: Grade(s)

Suggested Monitoring
Procedures

Possible Resources

Title: Report Using Sources Other
Than Books
Group/Size: entire class
Materials: Readers' Guide, Subject Index
to Children's Literature, or a
vertical file

Procedure(s):

- Have students write a brief report on a subject using information gathered only from magazines or materials in the vertical file. Have students include a simple bibliography.

Check report

District Resources

Student Learning Objective(s) A. The student knows there are specialized references for locating information: encyclopedias list alphabetically information on a wide range of subjects; atlases are bound collections of maps, tables and charts; almanacs are annual publications which include calendars, tables and/or other useful information. B. The student is able to use appropriate procedures to locate information in reference materials.

Title: Trip Around The World
Group Size: small groups
Materials: large world map with longitude and latitude lines but no names. At least one atlas per group, colored pencils or pens, set of cards with place names numbered on it, in sequence to progress around the world.

Observe success in progress.

Books:Library Skills, Beck and PaceUsing Reference Materials

T. S. Denison, 1965

Library Lessons For Jr. High
 Junior High Library Lesson
 Committee, Region 14, WSASL, 1965
Available at ESD 189 District
Resources

Procedure(s):

- One student from group stands at map ready to chart the course (each group uses a different colored pencil.)
- Remaining students in group are given a list of cities. (Each group is given a different group of cities).
- Group members, except for students at map, are to locate the cities in the atlas and determine the longitude and latitude of each.
- Group members provide student at map with the longitude and latitude coordinates.
- The student at map charts the course (each group using different colored pencil).
- After all groups have charted their course, names of cities may be labeled and discussion of each city's longitude and latitude may follow.

District Resources

Suggested Activities: Grade(s) _____	Suggested Monitoring Procedures	Suggested Resources
--------------------------------------	---------------------------------	---------------------

Title: Reference Scavenger Hunt
Group Size: two or three competitive groups
Materials: access to library, worksheet

Procedure(s):

- . Have a worksheet of questions which require students to use various references.
 - . First team done wins.
- Example: In what reference(s):
- can you find information about the presidents of the United States, order in which they held office, and length of term in office?
 - can you find a map of Iceland, Greenland and Nova Scotia?
 - can you find information on the batting order of the last world series team from the American League?

Title: Dewey's Window
Group Size: entire class
Materials: paper, pencils or crayons,
 markers

Books:

Library Skills
Denison 1967

Procedure(s):

- . Hand out plain paper, five sheets each.
- . Have students divide paper in half.
- . Write 000-009 as the heading of one half sheet.
- . On the other side of that same sheet write 100-199 with Philosophy at the top.
- . Have students draw pictures, write words, or titles for each category.

Example:

000-099 GENERAL REF atlases dictionaries encyclopedias	100-199 PHILOSOPHY Socrates Descartes Russell
---	---

- . Do the following categories in the same manner.
- 200-299 Religion
- 300-399 Social Sciences
- 400-499 Languages
- 500-599 Science
- 600-699 Use Arts & Sciences
- 700-799 Fine Arts
- And so on...

District Resources

Suggested Activities: Grade(s)

Suggested Monitoring
Procedures

Possible Resources

Title: Dewey Who?

Group Size: class

Materials: pencil, paper

Procedure(s):

- . Note: All nonfiction books are arranged in number order on the shelves in their Dewey category.

- . The Dewey number tells you two things:
The location of the book
The general subject of the book
- . Show a Dewey chart.
- . On the lines below, write the names and Dewey numbers of the categories in which you would find these books.

<u>God and His People</u>	<u>No.</u>	<u>Category</u>
<u>Familiar Insects of America</u>		
<u>Better Soldering for Boys</u>		
<u>How Books are Made</u>		

Title: Understanding Dewey

Group Size: class

Materials: worksheet

Procedure(s):

- . Have a reference sheet with the 10 main classes and their class numbers.
- . On your worksheet have a list of subjects.
- . Students put class numbers to the right of each word.

<u>Example:</u>	<u>Answer</u>
<u>Chemistry Experiments</u>	<u>500</u>
<u>Building Bridges</u>	<u>600</u>
<u>The Story of Helen Keller</u>	<u>900</u>

Variation: Have title of book and to the right have students write class name and class number.

District Resources

Student Learning Objective(s) <u>A. The student knows that nonfiction books are divided into</u>	State Goal	1, 9
<u>ten subject categories (Dewey Decimal System). B. The student is able to identify the ten</u>	District Goal

Related Area(s) _____		

Suggested Activities: Grade(s) 7-8

Suggested Monitoring
Procedures

Possible Resources

Title: Fun With Dewey
Group Size: entire class
Materials: worksheet

Procedure(s):

- Teacher prepares a reference sheet with ten main classes and their numbers.
- Have statements such as, "The Story of My Life" you will find in the 900's. Or "I Learned How to Play Soccer" from the 700's.
- Help students relate information with a Dewey Decimal class number.

Title: Dewey Solitaire
Group Size: groups of three or four
Materials: blank playing cards

District Resources

Procedure(s):

- Make ten class cards, one for each class number.
- Make up cards with subtopics on them and titles of books. Sixty cards are made with five cards dealt to each player. The rest of them placed in a pile.
- The class number cards will be used as aces in the middle. Students will get a point for each ace they put up and for every card they add to their aces.
- In turn, each player draws a card and plays on aces if possible. Discards are from hand or draw card.
- Game ends when all possible cards have been played. Winner has highest score.

Title: Dewey Dominoes
Group Size: groups of 2-4
Materials: cardboard rectangles with line
drawn down the middle of each

Procedure(s):

- On one end of a rectangle write class numbers (100, 200, etc.) and on the other write class names, but not for the corresponding class number. (see below.)
- Game is played by placing all dominoes upside down in center except one.
- Each student draws one domino at a time and plays it by matching a class to a number (100-matches philosophy).
- Each student should keep a tally slip on which he writes the matches he/she makes.
- Winner has the most matches.

Variation: Instead of with class names, write common subclass on one end of domino (education is matched to 300 or to social sciences).

Basic Skills Edition, by
Nila Banton Smith, Prentice-
Hall, Inc. 1977, page 137

District Resources

Procedures:

- Pass out worksheet on circle graphs.
- Explain concept of circle graph:
The whole is represented by a circle. The various parts of the whole can be shown as sectors of the circle (a sector of a circle is like a wedge of pie). Each part of the circle graph stands for a percentage of the whole.
- Read title and explanation of the graph.
Example:

- Below are some questions which will help students to read this type of graph. Have students write answers on their own paper and discuss answers with entire class.

Suggested Activities: Grade(s) _____	Suggested Monitoring Procedures	Possible Resources
--------------------------------------	---------------------------------	--------------------

- . What percent is represented by the entire circle?
- . What is the name of the sector which shows the greatest amount of time?
- . What percentage of the day did Sharon spend at meals?
- . Does Sharon spend more time at school or more time playing and studying?

Title: Quick!Group Size: entire class.Materials: short article or storyProcedure(s):

- . Give each student a copy of an article, face down.
- . Review the formula:

PURPOSE (main idea) + MATERIAL (easy) = HOW (skim)

and define the variables.

- . At the given signal, papers are turned over and students skim for the main idea.
- . Students raise their hand when they have it.

Title: Key Questions
Group Size: entire class
Materials: newspaper and magazine articles

Time the students to make sure they are scanning instead of reading thoroughly.

Procedure(s):

- . PURPOSE + MATERIAL = HOW
- . PURPOSE: To answer six key questions:
Who? What? Where? When? Why? How?
- . MATERIAL: Newspaper or magazine article (easy)
- . HOW: Scan. Move eyes rapidly over the page, line by line, looking for the particular information needed. Don't read everything on the page.
- . As a class, to provide guided practice, do several articles together. Articles may be typed in primary type on a transparency, or worksheet, or duplicated copies may be handed out.
- . Provide guided practice and then monitor and adjust.
- . Provide more articles and worksheets with the six key questions.
- . Time the students while they scan and then discuss the answers.

Possible Resources

Title: Talk Through Technique
Group Size: entire class
Materials: sentences with vocabulary words in context and underlined

Procedure(s):

- Talk through technique is to encourage students to discover relationships by linking the known with the unknown.

Example:

Carbolic acid was used for the disinfection of surgical instruments. How can the teacher use the students' strengths to establish a relationship between their everyday lives and the word that means destroying germs? Suggest: Chlorine in swimming pools, medicated spray on cuts and foot baths before entering a pool.

- For closure go back to the original sentence containing the word disinfection.

Title: Who Dreamed That Up?
Group Size: entire class
Materials: stories of word origins, the word, magazines

Procedure(s):

- This procedure is based on the psychological principle of paired association.
- An unknown or new word is paired with the story of its origin.

Books:

Reading Activities in Content Areas, by Dorothy Piercey, Allyn and Bacon, Inc., pages 6-10

Be A Better Reader II, Nila Banton Smith, pages 7-15.

District Resources

Suggested Activities: Grade(s) _____	Suggested Monitoring Procedures	Possible Resources
--------------------------------------	---------------------------------	--------------------

Example: mnemonic--teacher tells the following story---Mnemon was a companion of Achilles, the man with the vulnerable heel who supposedly had a memory problem. The main reason Achilles kept Mnemon around was to be his memory.

- . The teacher could give other new words and pair them with a story.
- . Students can select a word and its story origin.
- . Students could cut pictures from magazines to illustrate the story.

Title: Blords
Group Size: a small group, entire class
Materials: newspaper

Procedure(s):

- . Idea lists may use acronyms for memory jogging.
- . Acronyms or blends (renamed blords that rhymes with cords) are pronounceable words formed from the beginning letters or groups of letters in words that make up a phrase.

Examples:

Acronym--Alcoa--Aluminum Company of America
 SCUBA--Self-Contained Underwater Breathing
Apparatus

Blend (Blord)--Calexico--California Mexico

- . Students locate "blords" in the newspaper and cut words out.
- . Students check the almanac to find out what the "blord" stands for.

Variation:

- . Students could learn acronyms of governmental agencies; HEW--Health, Education, and Welfare.

Title: How To Read A Chapter
 Group Size: entire class
 Materials: textbooks in the content areas

Procedure(s):

- PURPOSE: (stated by teacher or determined from questions to be answered) + MATERIALS (determine level of difficulty of textbook by readability formula) = HOW (study technique).

Apply the SQ3R method of study that follows:

- SURVEY: Have the students survey the chapter they are going to read.
- Have the students find the title of the chapter and read it.
 - Have the students find each heading and sub-heading (usually in boldface type or capital letters) and read them.
 - Have students skim each paragraph for a topic sentence.
 - Have students find the summary of the chapter and read it.
- QUESTION: Have students raise questions about the materials that they are going to read.
- Have students look again at the headings, sub-headings and summary found in the chapter.
 - Have students write several questions that they would like to have answered as they read the chapter.
- READ: Have students carefully read the chapter.
- Have students look for answers to their questions as they read.
 - Have students write the answers to their questions on a special page in their notebook.

RECITE: Have students go back over the answers that they have written.

Have them do the following:

a. Cover their questions and answers with a sheet of paper.

b. Look at the first question.

c. Repeat the answer to the question.

d. Check their answer with the answer they have written.

e. Follow the same steps for each of the questions.

REVIEW: Have students review the chapter by doing any of the following: (Plan on reviewing the chapters that have been read several times during the school year.)

a. Working with a friend, take turns answering the questions that have been raised.

b. Record questions and answers on tape for a later review.

c. Pretend to be a newspaper reporter who was present when the events of this chapter took place. Write a newspaper article reporting on several of the events that may have happened.

d. Prepare a series of slides, transparencies, or cartoons dealing with this chapter. Use these as part of a report to give to the class.

e. Make a time line to show the order of the events in the chapter.

f. With several friends, plan a debate or discussion dealing with the chapter.

g. Plan a mystery auction to sell some of the items mentioned in the chapter. Think of ways in which you can describe the items without giving their names.

h. Write an advertisement with drawings to sell some of the items mentioned in the chapter.

i. Plan a radio or TV report covering the important points mentioned in the chapter.
